

Gigaset

Because it's your business.

Gigaset's new professional line: Gigaset pro.

PRO

Gigaset pro

INSPIRING CONVERSATION.

It's your advantage.

Gigaset's new professional phone systems enhance your business.

Communication from the experts.

As Europe's communication market leader, Gigaset is experienced, knowledgeable and competent in its field with concrete understanding about:

- Human communication needs
- Productive business communication
- Business partners' demands and objectives

Everyone benefits.

Gigaset's tailor-made professional phone systems with world-renowned German technology meet all the requirements – price, performance, innovation, utility, and interoperability – giving providers, VARs, and businesses:

- Cost-effectiveness
- Scalability, flexibility, and interoperability
- Business calls with exceptional voice quality
- Quick and easy setup
- Easy in-house management & maintenance
- Sophisticated call management features
- A premium, award-winning look
- Bluetooth® technology
- Energy-saving features

Maximum telephony.

Small and medium businesses love the addition of Gigaset's premium phones that feature intuitive award-winning user interfaces, eye-catching, contemporary designs and first-rate executive features. Especially attractive are the ultimate connectivity and portability options, including:

- Entry-level IP phones that improve business communication efficiency
- High-end IP phones that take business communication to the next level
- DECT base stations for freedom of movement in the office
- Classic DECT cordless handsets for more calling freedom

Endless solutions.

Because all businesses communicate differently, every SMB chooses an individual solution using the following:

- Complete solutions with a PBX system and IP desktop phones
- Interoperable IP desktop phones for use with existing PBX system
- Stand-alone IP desktop phones for small business without a PBX system
- An all-in-one complete telephony system for small and home offices

Energy-saving features:

Provide workplaces with an eco-conscious communication system.

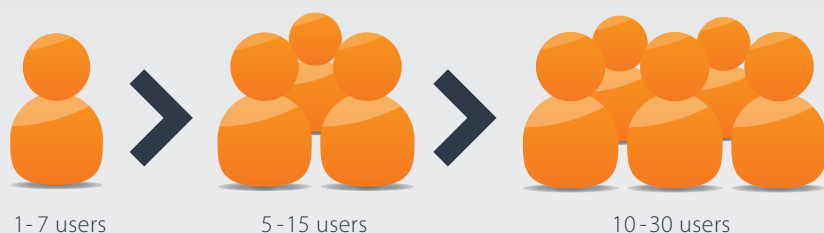

iF award: Numerous Gigaset designs have this prestigious award.

It's your flexibility.

Gigaset professional systems grow with your business.

Designed for growth.

New staff, new address, new location: adapting to change is a must for businesses. Gigaset's tailor-made professional systems easily expand to accommodate new situations, supporting small to larger installations. Of course, they are also interoperable with most major PBX systems.

Made for movement.

In addition to scalable systems, Gigaset gives business flexibility a whole new meaning with hi-tech features.

- Gigaset MobileOFFICE™ is a convenient, mobility feature that lets users save personal phone settings on a USB device for easy access on other MobileOFFICE™ phones.
- Integrated DECT technology allows for a more dynamic workplace: it supports the connection of a cordless handset and DECT headset.
- Link2Mobile™ enables users to register a Bluetooth®-capable mobile phone to Gigaset pro IP desktop phones, for truly all-in-one communication.
- Bluetooth®: Adds flexibility with a wireless headset, Link2Mobile™.

It's your time.

Gigaset systems are quick-to-install and easy-to-use.

The wisest choice.

Distributors, value-added resellers, and businesses alike enjoy a myriad of advantages with Gigaset, such as:

- Quick and easy installation
- Interoperability
- Easy migration into existing solutions
- Business growth opportunities
- Low, secure investment
- Flexibility and scalability
- Minimal service and maintenance efforts
- Proven Gigaset quality

Up and running in an instant.

Thanks to zero-touch auto configuration, businesses using a Gigaset PBX system together with Gigaset IP desktop phones can just plug & play. Simply connect the phone to the network and phones are ready for calling after a few short minutes. Auto-provisioning from Gigaset partners guarantees hassle-free configuration and management, even from remote locations.

An exceptional team player.

Compatibility is imperative for SMBs seeking a system upgrade or expansion, instead of a complete workplace overhaul.

Gigaset offers comprehensive interoperability with most leading PBX systems, resulting in an array of benefits for you and your customers:

- Full support of PBX system features
- Seamless compatibility with other major PBX systems
- High-level support of provider-based offerings

It's your performance.

Gigaset innovates with your business in mind.

Elevating daily communication.

With Gigaset's advanced technological innovations and exceptional design, businesses discover new dimensions in professional calling with benefits including:

- A communication network specifically designed to small and medium business needs
- Attractive details that gives the workplace a refined, high-class edge
- Intuitive usability that maximizes professional communication

License to move.

Today's professionals require communication that goes above and beyond a corded fixed line. That's why Gigaset IP desktop phones are specially designed for:

- Portability. Gigaset MobileOFFICE™, accessed via the **USB port**, lets mobile staff take their personal phone settings with them wherever they go.
- Flexibility. DECT and Bluetooth® interfaces enable the registration of a cordless handset or wireless headset.
- Compatibility. Link2mobile™ allows for incoming and outgoing calls from connected GSM phones

Scroll to the goal.

Business contacts and executive features are instantly available thanks to the hi-tech touch wheel with:

- Touch-activated sliding and five-way click
- A high-performance processor for real-time navigation speed
- Comfortable browsing through the picture vCards

An outstanding appearance.

The intuitive to use, award-winning user interface on the **colour display** unlocks the world of Gigaset's premium professional features and services. Features advancing business communication to new heights include:

- Easy-to-navigate, icon-based interface
- Animated effects in the menu and address book
- Customizable screensaver with optional slideshow
- RSS news reader and email reader
- Time zone indicator on incoming and outgoing calls

It's our partnership.

Gigaset provides full-range support for our partners.

Let's do it together.

Thanks to Gigaset, you can enjoy all-round support. Gigaset supplies quality products across the board. That means that you not only benefit from a communication solution tailored to your company, but you also receive the maximum amount of support. All our distributors, providers and value added resellers undergo extensive training. They not only know all the ins and outs of our systems, but also the needs of end users. Certified partners and resellers are given individual training sessions to keep them up to date with all the latest developments. They can always rely on our optimal technical support and our partner portal, which offers training tools, wiki-pages and answers to frequently asked questions (FAQs).

Gigaset is your partner in success: your business is our business.

We're there for you.

Gigaset has an extensive programme for customer service and technical support. You can always count on one-on-one contact.

- Experienced personnel will help you with your questions.
- We offer the best technical support, so that your reseller does not waste any precious time.
- The 'Gigaset error-tracking' system identifies and fixes any problems as soon as possible.
- Your reseller has access to online wiki-pages and answers to frequently asked questions.
