

Panasonic KX-TGP600 DECT Cordless Solution for VoIP enabled Retail Environments

The diagram below illustrates how the Panasonic TGP600 can be effectively and easily installed in to retail environments. With a mixture of normal cordless handsets and cordless desk top phones, the TGP600 is ideal for both staff on the move as well as desk placed staff. And with only a single network connection required there's no need for technical expertise for installation and set up.

Key Features:

- VoIP enable small retail shops without the wires
- Combination of 'fixed' desk and portable handsets available (TPA60 or TPA65)
- 'Fixed' cordless desk phone (TPA65), ideal for use at checkouts
- Portable handset (TPA60), ideal for warehouse and back office staff
- Supports up to 8 phones and up to 8 simultaneous calls
- Only one connection required
- Fully automated configuration available through ProSys
- Ongoing management and maintenance through ProSys
