With the Konftel Smart Microphone, you can expand the range of the Konftel 800 to handle larger conferences with up to 20 people in the room.

**Part no.** 900102144

# INSTALLATION

ⓘ Before connecting the USB cable **C** to the laptop, make sure that the DisplayLink driver is installed on the laptop.

⇒ Download driver at [displaylink.com/downloads](https://displaylink.com/downloads)

⇒ Connect the USB cable.

*NOTE! The configuration can in some cases take more than 60 seconds.*

The consequential re-connections will be faster (~10 seconds).

ⓘ You can also opt to connect the screen directly to your computer, usually via HDMI, and then you don't need the driver from DisplayLink.

Konftel is a leading company within collaboration endpoint solutions. Since 1988, our mission has been to help people in businesses around the world to have meetings regardless of distance. Based on our success, we know that remote collaboration is a smooth way to save time, money and at the same time contribute to a more sustainable world.

Crystal clear audio and a sharp video image are essential for efficient meetings, this is why we only focus on cutting-edge technology in our Collaboration Solutions.

Our audio technology OmniSound® is built into all Konftel Conference phones and devices. The products are sold globally under the Konftel brand and our headquarter is based in Sweden.
