Fits you
instantly

Experience superior hearing with HearPod Air—an FDA-cleared aid crafted for mild-to-moderate hearing loss. Advanced AI noise-canceling ensures crystal-clear sound for effortless communication.

Amplify only sound that matters rather than noise

Say farewell to bothersome background noise. With HearPod Air's advanced noise-canceling technology, unwanted sounds fade into the background, letting you focus on the sounds that truly matter to you.

Premium Sound Quality

Tailor your personalized audio experience effortlessly with the NearTune APP in the comfort of your home. HearPod Air hearing aids redefine richness and detail in sound, providing an exceptional audio journey where every sound resonates with crispness and clarity like never before.

Long Battery Life

With Nearity HearPod Air's long-lasting battery, offers up to 33 hours of continuous usage on a single charge.

Simplified Control

With HearPod Air's intuitive button controls, allow seamless adjustment of volume levels, switching between modes.

NearTune APP

Set up and customize your OTC hearing aids easily with the NearTune app for a personalized fit.

What are the over-the-counter hearing aids?

Over-the-counter (OTC) hearing aids are designed for individuals with mild-to-moderate hearing impairment, bolstering their confidence in auditory experiences. The increased accessibility and affordability of these aids arise from the lack of necessity for a prescription from an audiologist. Nearity HearPod Air, an FDA-cleared option, is conveniently available for purchase online or through authorized Nearity partners, allowing you to acquire it from the comfort of your home.

NEARITY AW-HA10 Datasheet

Module	Technical specifications
