

Yealink

DECT USB Dongle DD10K

Quick Start Guide(V1.3)

Introduction

DECT USB dongle DD10K allows you turn the SIP-T41S/T42S IP phone to the DECT desk phone (hereinafter referred to as DD phone). After that, you can use the IP phone as a handset with a base station.

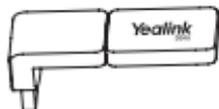

DECT USB dongle DD10K also allows you turn the SIP-T58V/T58A/T56A IP phone to the corded-cordless phone. After that, you can use the IP phone as a base station and its handset 1.

The features introduced in this guide apply to the following Yealink IP phones:

- SIP-T41S/T42S IP phones running firmware version 82 or later.
- SIP-T58V/T58A/T56A IP phones running firmware version 83 or later.

Package Contents

The following items are included in your package. If you find anything missing, contact your system administrator.

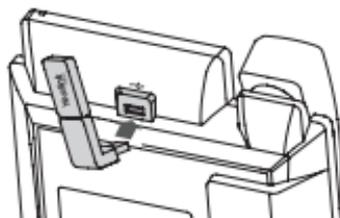

DD10K

Quick Start Guide

Assembling the DD10K

Assembling the DD10K, as shown below:

To assemble the DD10K:

1. Insert the DD10K into the USB port on the back of the phone.

If the firmware versions of the DD10K and IP phone do not match, the IP phone makes the DD10K upgraded.

Note: The DD10K cannot be used on the SIP-T41S/T42S IP phone running the firmware version 82 if it was inserted to the SIP-T58V/T58A/T56A IP phone once.

Getting Started (for T58V/T58A/T56A)

Handset Registration Mode

Before registering the handset, make sure the IP phone is in the registration mode.

To set the IP phone to the handset registration mode:

1. Insert the DD10K.
2. Swipe left or right to go to the second idle screen.
3. Navigate to **DECT Settings->Handsets**.
4. Tap **Register**.

Handset Registration

You can register up to other four handsets to one phone. The supported handsets include W52H, W53H, W56H and DD phone.

To register the handset when the phone prompts "Unregistered!", do one of the following:

- Press the **Reg** soft key to register quickly.
- a. Do one of the following:
 - Press the **OK** soft key, and then select **Register Handset**.
 - Press **OK** , and then select **Settings->Registration->Register Handset**.The handset begins searching for the phone.
- b. Press the **OK** soft key after a phone is found.

- c. Enter the base station PIN (default: 0000), and then press the **OK** soft key to complete the registration.

Note:

- If the handset is registered to the phone successfully, the phone prompts "Subscribed Succeed".
- If the handset prompts "Searching for Base", check whether your phone is in the handset registration mode or not.

Checking the Dongle Status (for T58V/T58A/T56A)

To check the dongle status:

1. Insert the DD10K.
2. Swipe left or right to go to the second idle screen.
3. Navigate to **Settings->Status->Dongle**.

Getting Started (for T41S/T42S)

DD Phone Mode

Before using a IP phone as a DECT desk phone, you should enable the DD phone mode first.

To enable the DD phone mode when the IP phone is powered on (only for firmware version 84 or later):

1. Insert the DD10K.
The phone screen prompts you whether to switch to the DD phone mode.
2. Press the **OK** soft key to continue, and the phone switches to the DD phone mode after rebooting.

To enable the DD phone mode when the IP phone is powered off:

1. Insert the DD10K.
2. Power on the IP phone.
The IP phone switches to the DD phone mode automatically after startup.

If you purchase the W41P package, the T41S is registered to the W60B by default, so you can skip the Registration

process. If you purchase the DD10K package, you should manually register the DD phone to one Base station.

Registration

You can register up to 8 DD phones (for W60B) or 5 DD phones (for W52P) to one base station. Each DD phone can be registered to only one base station.

Before registering the DD phone, make sure the base station is in registration mode (long press  on the base station till the registration LED flashes).

To register the DD phone when the phone prompts "Unregistered!", do one of the following:

- Press the **Reg** soft key to register quickly.
 - a. Do one of the following:
 - Press the **OK** soft key, and then select **Register Handset**.
 - Press , and then select **Settings->Registration->Register Handset**.
- The IP phone begins searching for the base station.
- b. Press the **OK** soft key after a base station is found successfully.
 - c. Enter the base station PIN (default: 0000), and then press the **OK** soft key to complete registration.

Note:

- If the DD phone is registered to the base station successfully, the phone prompts "Subscribed Succeed".
- If the DD phone prompts "Searching for Base", check whether your base station is powered on or not.
