

# SIP-T87W

## Ultra Prime Business Phone to Deliver Optimum Desktop Productivity

Especially designed for busy executives and professionals, the Yealink SIP-T87W is an intuitive Prime Business Phone with a 7-inch multi-point touch screen. It allows you to easily find a comfortable viewing angle and provides effortless navigation with just one touch. The SIP-T87W delivers ultra-high-definition sound quality and supports broadband audio codecs for realistic call effects. Yealink's self-developed AI noise cancellation ensures superior audio quality during calls. With built-in Bluetooth 5.0 and dual-band 2.4G/5G Wi-Fi 6 modules, it keeps you updated with the latest technology, ready for the future wireless era. The T8X series enhances the Yealink ecosystem, supporting more Yealink headsets. It allows headset configuration and upgrades via the LCD and works with headsets featuring a wearing detection function for intelligent channel switching.

*\* Only BH76 supports intelligent channel switching.*

## Key Features and Benefits

- Linux 6.1 version
- TEE hardware encryption solution
- Dual system function
- Unified firmware for T7X series (T73U, T73W, T74U, T74W, T77W), T85W, and T87W
- Up to 16 SIP accounts
- PoE support
- Support USB headset and EHS
- Built-in Bluetooth, WiFi
- Supports color-screen expansion modules
- One adjustable angle for desktop placement
- Wall mountable
- Handset with hall switch

## Outstanding user experience

T87W IP Phone features an adjustable 7-inch capacitive touch screen that you can readily adjust to a comfortable

viewing angle. In addition, a clearly defined set of menus is easy to navigate when all you have to do is touch the desired option, ensuring you have an optimized interface for a smartphone-like user experience.

#### **HD audio**

Regarding audio quality, the T87W features Yealink Optimal HD Voice technologies, including Acoustic Shield technology, which effectively eliminates background noise and delivers crystal-clear voice even in noisy environments. Yealink's AI noise cancellation further enhances audio quality during calls. Additionally, its HAC handset complies with Hearing Aid Compatibility (HAC) regulations, helping those with hearing loss hear more clearly.

#### **High security and compatibility**

T87W adopts the latest network security technology, supports SRTP and TLS call encryption, 802.1x media access control, MD5 and MD5-Sess based authentication, AES security profile, and other perfect security protection mechanisms to avoid hacker attacks. Widely compatible with third-party SIP devices and leading SIP platforms. In addition, T87W supports a dual system function, which can back up your phone system in advance to avoid system crashes caused by upgrade failure, thus providing you with enterprise-level system protection. T7/T8X series also supports a security center function to ensure your phone is more secure. At the same time, high-sensitivity functions and data support user individual control, as well as one-click disconnection.

#### **Customizability and scalability**

T87W has its own two USB ports. You can choose any according to your needs. T87W supports five pages of page turning and can support up to 84 programmable buttons; in addition, T87W can cascade up to 3 color screen expansion units, expanding 234 programmable buttons to save operation time and achieve efficient office work effectively.

#### **Wireless transmission**

T87W has a built-in Bluetooth 5.0 module, supports Bluetooth headsets, and can connect to mobile phones via Bluetooth for phone address book matching. At the same time, to adapt to the upcoming 5G Wi-Fi era, SIP-T87W has built-in dual-band Wi-Fi 6 (Dual band). 5G Wi-Fi has better anti-interference and faster speed, allowing you to be one step ahead in the busy data torrent. In addition, SIP-T87W can be used with the Yealink video conferencing soft terminal to share the content on the computer to the remote end, giving you the ultimate content-sharing experience.

#### **Incorporating Linux 6.1 and TEE hardware encryption solution**

The T87W uses the updated Linux 6.1 version, which makes the system more secure and has stronger performance. At the same time, T87W also uses the TEE hardware encryption solution, which can provide you with a more secure data storage experience.
